Web Design Packages

TERMS & FLOW

01. The Launch Process

- **Timeline:** Essential sites typically launch within 10–14 business days. Standard packages follow a custom timeline established during the project kickoff.
- **Launch Readiness:** The timeline begins once the 50% deposit is received and all requested content (copy and images) is provided.
- **Content Policy:** Delays in content delivery will result in a day-for-day extension of the launch date.

02. Technical Foundation & Payments

- **Payment Flow:** A 50% deposit secures your spot in our calendar, with the remaining 50% due upon site completion and prior to launch.
- **Domain Ownership:** We guide you through your domain purchase so you maintain 100% authority; you keep the keys.
- **Managed Hosting:** Your site is hosted within the Shiso Digital Studio environment for the first year to ensure maximum speed, SSL security, and technical stability.
- **Studio Care Plan:** To maintain this technical stability, all packages include a mandatory 12-month maintenance commitment. Billing begins 30 days after your project deposit is paid.

03. Handover & Freedom

- **Post-Commitment Options:** Upon completion of your initial 12-month Studio Care Plan, you gain full “Technical Freedom”.
- **Flexibility:** You may choose to continue with Shiso’s managed support or transition to self-management (moving the site to your own hosting account) at no extra cost. We believe in partnership, not lock-ins.

[*] **Maintenance Definitions:** Essential Care: Includes premium hosting, SSL security, and technical stability. Growth Care: Includes everything in Essential + 30 mins of monthly content updates.
